Professional Summary

Software developer with 3 years of experience enhancing Microsoft Dynamics 365 CRM systems. Proficient in a wide range of programming languages including C#, JavaScript, and Python, with a strong focus on data analysis using Power BI to support informed decision-making. Passionate about technological advancement and implementing customized features to optimize business processes.

I am dedicated to creating an exceptional user experience while developing clean, modular code. Curious, self-taught, motivated, and eager to learn new web technologies to build better and more efficient solutions. Bilingual – French and English.

Personal qualities: resourcefulness, logic, analytical thinking, autonomy, maturity, organizational skills, teamwork, versatility, strong communication abilities, and openness to feedback.
